

Harbour Safety

North Berwick

Children and adults have been harbour jumping, swimming and fishing from North Berwick Harbour and Galloways Pier for many years. The Harbour Trust sees many benefits in this, including improved health and fitness, long term safety by encouraging swimming and experience in the sea, and important chances for to mix with other children of different ages.

Hazards at the Harbour:

Deep water – dangerous to non-swimmers or weak swimmers.

Tidal variation – water may be too shallow to jump safely.

Movement of boats– at times boat traffic may be too busy for harbour jumping and swimming to proceed safely. There is a risk of serious cuts from

propellers as well as collision and crush injuries.

Cold water shock if you jump straight in – enter the water slowly by the steps
